

CT-ORL030

INFORMATION:

CT-ORL030 is a rotary laser with rapid horizontal self leveling. Ideally suited for indoor & outdoor applications in construction and interior finishing work such as leveling of concrete foundations, electrical installations, leveling & alignment in ceilings and alignment & marking in engineering or steel structures.

TECHNICAL SPECIFICATION:

Operating Range	Upto 300 m radius with laser receiver
Self Leveling Range	+/- 5°
Accuracy	2 mm/10 m
Laser Wavelength	335 nm
Remote Controlled Range	15 m
Scan Mode	2 Stage
Perpendicular reference beam	90° to plane of rotation
Horizontal Leveling	Automatic
Vertical Leveling	Manual
Power Supply	Rechargeable Battery & Charger
Batt. Op Time	Approx 20 hours
Tripod Mounting	5/8in mounting thread on laser and floor mount

ROTATIONAL LASER - 360°
