

## CT-AL032

### INFORMATION:

*The CT-AL032 is an automatically leveling high performance optical instrument useful during site surveys and building construction to gather , transfer or set horizontal levels and grade applications. CT-AL032 is the preferred instrument on construction sites due to its ease to use, rapid set up time and reduced operator fatigue.*

<b>TECHNICAL SPECIFICATION:</b>	
Standard Deviation for 1 Km Double-run levelling	1.5 mm
Telescope image	Erect
Magnification	32x
Clear Objective Aperture	36 mm
Field of View	1°20'
Shortest Focusing Distance	0.65 m
Stadia Multiplying Constant	100
Stadia Additive Constant	0
Sensitivity of Circular Level	8/2 mm
Graduation Interval of Circle	1° or 1gon*
Working Range	+/- 15'
Setting Accuracy	0.4"
Connected size to tripod	5/8"/M16

**AUTO LEVEL-32X**
