

CT- HD050

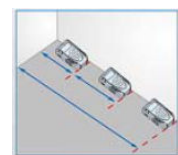

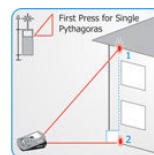

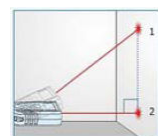

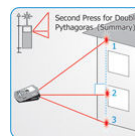

INFORMATION:

A professional laser based distance meter to measure the distance indoor/outdoor specially for construction, interiors, precision engineering works & fabrication.

APPLICATION:

- Positioning of building components
- Building checks & inspection
- Spacing, alignment & inspection of Metal Fabrication & Structures
- Measurement for flooring, air conditioning, material estimation
- Layouts from fixed reference points
- Check building square & area
- Measuring distance, area & volume

Technical Specification:	
Measuring Range*	0.05M~70M
Resolution	0.001M
Accuracy*	±1.5mm
Measuring Speed*	0.5 sec.
Beam Size	25mm@30M
Battery	AA Batteries x 2
Battery Life*	10,000 measures
Dimension	110mm x 45mm x 30mm
Operation Temperature	- 5°C ~ 40°C
-Laser	30 seconds
-Device	180 seconds
Countdown Measure	3~15 seconds, selectable

LASER DISTANCE METER
